

CHAU NHAT LONG

GAME DEVELOPER

ABOUT ME

I graduated from Danang University of Technology in June 2017.

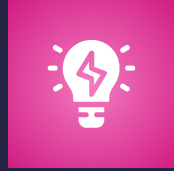

My major is software engineer, I always try my best to learn new things and accumulate good experience. Moreover, I have 1 and a half years of experience working in Asian Tech Company.

During this time, I have a chance to learn and work with a telligent team. They show me the power of teamwork. I believe that I can improve myself day by day, and update my knowledge and techniques to support my job.

After that, I tried at a start-up company for 2 years and gained a lot of experience to be able to become the developer I am today.

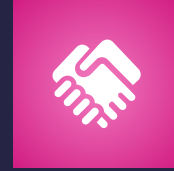

MY STRONG POINTS

CREATIVITY

Have a high creative spirit,
always explore and develop
myself everyday

COMMITTED

High sense of self-discipline
and responsibility at work
